

Historical Pages

You are required to produce one historical page each month. This should be an event, individual biography, or special interest topic that has some historical, social, or public interest importance. All topics must be cleared with the instructor.

You will have folders under Television/161 or Adv on all computers. Depending on the computer these may be on different drives. All files pertaining to Historic pages must be kept in this file. By the fifteenth of each month you must have cleared your page with the instructor. This is worth 50 of the 100 possible points for each page. File storage and date clearance will be part of the evaluation procedure.

If a page is not completed, that page and double that is due the next month and every month until the end of the semester. That means two pages are due the next month and every month left in the semester in addition to the one missed. If one of these pages is missed, the following month four pages are due as well as the ones missed from the previous month until the end of the semester. Each month's pages are still worth 100 points a month no matter when they are finished.

On the last day of each month there will be a class evaluation of all pages.

Historic Pages are due at the beginning of the class period on the last class date of each month:

1. September/February
2. October/March
3. November/April
4. Second to last class day of the 1st Semester/ 2nd to last class day 2nd Semester

Evaluation: You must have all required pages finished by the end of the final exam period
Failure to complete all pages = 1 drop in final grade
